Consults Your Dentist

Bleaching

As a Dental Professional the challenge of teeth whitening procedures is to produce visible and lasting results for your patients through procedures that are safe, non-toxic and non-painful while still protecting and maintaining the integrity of the dentine and enamel.

Meodental, the leader in teeth whitening solutions, brings you **NATURAL+™** range of exclusive and patented, professional and affordable teeth whitening solutions that produce superior results and address all the concerns related to teeth whitening procedures plus many other benefits.

Why is **NATURAL+™** different and superior to any other teeth whitening products?

- Virtually no sensitivity or side effects during and after the procedure
- Inclusion of Dead Sea Minerals in the formula
- Calcium and Fluoride released during the procedure
- Enamel layer protection as well as reinforcement of dentine
- Non-toxic, ecological and stabilized hydrogen peroxide (Patented)
- Neutral pH formula
- High molecular mass thickener due to high water content
- High viscosity resulting in better adherence
- Progressive and sustained release of active ingredients
- Long lasting results - Visible immediately improvement of up to 8 lightening tinges (VITA scale)
- Effectively treats all types of teeth discolorations and stains including fluorosis and tetracycline stains
- Safe and Reliable
